

Aufgaben für die Woche vom 4.-8. Mai 2020

6b

p. 82/83 - Out on the high moor

No. **1**: Read the text & say in 3-4 sentences who is in the story, where it happened and what happened.

Also do No. **2a**, No. **3** (help & ideas on p. 129/3), No. **4a** (pick one poem), **4b** & **4d**
> If you want to, you can share your ideas with your classmates, maybe via voice mail or video chat on WhatsApp, Email or FaceTime. And of course, in English 😊)

Also **copy & learn the vocabulary** of Part B and C.

As extra task you can do the EarlyFinisher task on p. 139 Part C. (freiwillig)

As usual, you can send your tasks to me via email, but you don't have to.

7b

p. 90/91 - a project

Do **Step 1** online. Instead of an atlas you can use an online map, like Google Maps. As alternative to a relief map for the highland and lowland areas, you can use the "Gelände-Karte" on Google Maps. (You can find it at the top right corner on the map, where you can choose between Standard, Satelit & Gelände)

Also do **Step 2**: In b, make sure that it is like a real report. So, think about the temperature, sun, clouds, wind etc. (You already know that from the 5-minute-teacher.)

And do **Step 3**. Step 3d is optional. If you want to, you can record your forecast for your friend and send it for example via WhatsApp or email or you read it to him/her on FaceTime or in a video chat.

As usual, you can send your tasks to me via email, but you don't have to.
